We are motivated to engineer relaxation and well-being in your home and life. Our full range of gas fireplace products illustrate this determination; we are passionate about creating beautifully designed products that truly capture the essence of luxury comfort in the home.

With commitment to ongoing innovation, we endeavour to offer heating products that feature safety, control, convenience and versatility to ultimately deliver reliability. Relax, it’s a Rinnai.

Our Focus

Design
A Rinnai gas fireplace provides more than just heat. As a centre piece to your home, a truly warm focal point, we understand the importance of design—and it’s at the heart of what we do. Our approach to design and function ensures we deliver forward thinking, innovative products that you’re proud to have in your home.

Energy efficiency
Constantly front of mind at Rinnai, we strive to ensure our products are friendly to the environment and your hip-pocket. With energy star efficiency ratings as high as 5.5 stars*, we are pushing new boundaries of energy efficiency.

Quality
Meticulous engineering, precision manufacturing and strict quality assurance procedures are the hallmarks of our ongoing focus on quality products. Our obsession with excellence means you can relax knowing you’ve made the right choice.

Warranty
We’re confident in the quality of our products, so much so that we offer 10 years domestic warranty on the heat exchanger, 2 years on the fan and 1 year for all other parts/labour for all Rinnai gas fireplace appliances.

Safety
All Rinnai gas fireplace appliances are equipped with a range of safety features, giving you peace of mind.

Simple installation
The Rinnai range of gas fireplaces are engineered with ease of installation in mind. We strive to ensure that all components of our fires are designed for simplicity and easy access, allowing a quick and hassle-free installation.

Support
We operate a Melbourne based national customer administration centre, offering advice and information on all our products to homeowners, retailers, plumbers, builders, architects and the like. Contact us on Monday to Friday, 8:00am to 5:30pm on 1300 555 545.

*Star rating depends on installation and flueing configuration

Driven to create comfort.
There’s no better way to escape the winter chill than curling up in front of a flickering fireplace. The Rinnai 750 combines cutting-edge technology and luxurious design features to deliver an authentic ambience.

Rinnai’s innovative ember bed technology recreates the warm, radiant glow of a natural wood burning fire, delivering the romance of fire at the touch of a button - without any fuss.

- Unique new ember bed technology
- Simple, slimline remote control with every unit
- Wide viewing window with minimal frames
- Double glazed front - no need for a mesh guard
- High heat output up to 6kW of warmth
- Designed for replacement, renovations or new homes
- Available with either natural wood or glowing stones

The 950X represents a new generation of gas fires for Rinnai. Designed to meet the highest expectations in terms of simple installation, powerful heat output, energy efficiency and flueing flexibility, the 950X is the future of fire.

This gas log fire offers a mix of modern frames and burn media options, giving you the ultimate flexibility to create a space that is your own. The classic cut wood look of the Australian Eucalyptus Log Set provides a beautiful dancing flame, whilst the glowing Pebbles radiate warmth with a modern twist.

- Incredibly energy efficient with a top-of-the-range 5 star rating.
- Powerful heating performance over 8kW, perfect for open plan living and large areas.
- Modern or classic? Select either pebbles or logs to suit your style.
- Stainless steel or black? Select a fascia option to match your tastes.
- Safety mesh guard to give peace of mind and eliminate reflections.
- Thermostatic control - set the temperature and relax.
- Flexible flueing options.

Spread the warmth and comfort.
The Sapphire gas log flame fire gives you all the appeal of an open wood fire, without any of the bother that goes with it.

Perfect for the replacement of an old, inefficient wood or space heater, the Sapphire is specifically designed to fit into an existing fireplace without any additional flueing required. This gas fire is also available in a variety of freestanding options, or may also be installed in a mock fireplace.

- 4.1 Star energy efficiency rating
- Powerful 6.97kW output - suitable for heating large open areas
- Programmable 4 period timer
- Stylish glass dress guard for protection
- Optional remote control available

Relax in warmth and comfort with this gem.

An attractive slim-line you'll really warm to.
Keep an eye out for this logo and make sure you visit a Rinnai Trusted Gas Fire Specialist.

Selecting the right gas fireplace for your home can be a difficult task. With a huge range of different design options, making the right choice that suits your living space can be a daunting decision. There’s also a range of complexities around installation and service that may impact your decision.

That’s why Rinnai recommends visiting a Rinnai Trusted Gas Fire Specialist dealer. Rinnai supports a national network of dealers that offer the full end-to-end service when it comes to gas fireplaces. A Rinnai Trusted Gas Fire Specialist can specify, install and service your Rinnai gas fireplace.
Creating a False Fireplace

Whether you are building a new home, working through a major renovation or just want to revamp your living room, the Rinnai zero clearance option is the perfect solution to creating a new space.

If your home doesn’t have an existing fireplace, creating a false fireplace is the next best thing. To ensure an easy installation into a timber frame or other combustible materials, the Rinnai 1250 and 950X are designed with an integrated zero clearance box.

The Sapphire and Slimfire can be installed with the purchase of an additional zero clearance box and the 650 and 750 require an additional zero clearance frame.

For an alternative installation to a false fireplace, the Rinnai 1250, 950X, 750 & 650 can be installed into a weatherproof box. A cavity is cut into the existing blank wall and the fireplace is installed onto a bracket that allows the back of the fire to sit outside housed in a tightly sealed box. This option allows the fire to be built into an existing wall without taking up any extra space in the room. The weatherproof box is sold separately.

Existing Masonry Fireplace

Another great option for many homes is installing a gas fireplace into an existing brick chimney. Turn an unused fireplace into a stunning feature or replace an existing gas heater with a Rinnai gas fireplace to create the ultimate solution for comfortable living. The Rinnai Sapphire, Slimfire, 650 & 750 are designed to suit existing masonry fireplaces.
